

COMMERCIAL ELECTRICAL & DATA CONTRACTOR · SUNSHINE COAST

CAPABILITY STATEMENT.

Commercial electrical and data specialist with asset care services across commercial, industrial and storage facilities. **Powering projects. Protecting assets.**

Est. 2021

Sunshine Coast

20+ projects

design & construct

State Winner

2026 NECA QLD

What clients get when they engage Coast.

We make electrical and data projects easier to deliver. From planning to handover and beyond, Coast provides practical project coordination, accountable delivery, strong communication, and a pathway into ongoing asset care.

Clear Scope

We define the work clearly, align expectations, and identify risks early.

Practical Coordination

We coordinate people, systems and programs to keep projects moving and reduce disruption.

Accountable Delivery

We deliver to plan and to standard, and take ownership of safety, quality and outcomes.

Ongoing Support

We stay engaged after handover with planned maintenance and responsive support.

Powering projects. Protecting assets.

One team across electrical and data, from the first site meeting to the years after handover. Projects delivered properly, then looked after through Coast Asset Care.

Where Coast fits.

Coast Electrical & Data Services delivers specialist electrical and data solutions across four key markets.

FLAGSHIP

Storage Facilities

Secure, efficient and practical facilities where uptime and safety are essential. Our heaviest volume, delivered repeatedly for storage builders, developers and operators.

MARKET

Commercial

Offices, retail and mixed-use spaces that demand reliable electrical and data infrastructure for people and productivity.

MARKET

Industrial & Infrastructure

High-demand sites and critical assets that require robust, compliant and future-ready systems.

MARKET

Retail & Hospitality

Cafés, bakeries and retail fit-outs delivered on live sites without disrupting trade, including ongoing multi-site retail relationships.

HOW COAST SUPPORTS EACH ENVIRONMENT

Project Delivery & Design	We plan, design and coordinate solutions that set the foundations for successful delivery.
Existing Building Works	We deliver safe, efficient upgrades and modifications that minimise disruption.
Facility Improvements	We enhance performance, efficiency and compliance to help facilities operate at their best.
Coast Asset Care	We provide proactive maintenance and support to protect value and extend asset life.

Our home. Our reach.

Sunshine Coast based. Queensland-wide. Proudly based on the Sunshine Coast, we deliver electrical and data solutions across Queensland, supporting projects from local communities to major regional centres.

Brisbane · Sunshine Coast (home base) · Toowoomba · Rockhampton · Mackay · Townsville · Cairns

What Coast delivers.

Service pathways that make it easier to find the right support. Coast groups its services around the problems clients actually need solved, from new projects and upgrades to maintenance and urgent support.

01

Project Design & Delivery

Electrical and data delivery for new builds, fit-outs, storage facilities and major commercial or industrial projects.

- Design and construct support and delivery
- New installations
- Switchboards and distribution
- Infrastructure and major distribution cabling
- Pit and pipe installations
- Energy and cost saving analysis
- Testing and commissioning

02

Existing Building Works

Upgrades, alterations and electrical improvements for operating buildings and facilities.

- Refurbishments
- Compliance upgrades
- Lighting and power changes and upgrades
- Infrastructure upgrades and modifications
- Live site coordination to minimise disruption

03

Facility Improvements

Targeted improvements that lift performance, safety, efficiency and usability.

- LED and lighting upgrades
- Data and communications
- Access, CCTV and security
- Air conditioning services

04

Coast Asset Care

Scheduled and preventative maintenance designed to protect completed assets.

- Planned maintenance
- Preventative inspections
- Testing and reporting
- Repairs and replacements

05

Urgent Electrical Help

Fast reactive support when faults, failures or safety issues need immediate attention.

- Fault finding
- Make safe works
- Reactive repairs
- Operational continuity support

Specific services.

The practical electrical and data solutions Coast delivers across its key markets.

Power, Lighting & Distribution

- General power
- Internal and external lighting
- LED upgrades
- Emergency and exit lighting
- Switchboards
- Submains and distribution
- EV charging installations
- Lighting control and sensors
- Temporary builders supply

Data, Access & Security

- Data and communications
- Structured cabling
- Fibre cabling
- Site-specific network setup and management
- Access control
- CCTV and security systems
- Data racks and cabinets

Infrastructure & Site Services

- Underground power
- Infrastructure upgrades
- Site electrical services
- Pit and pipe services
- Machine and plant power
- Commercial and industrial fit-outs

Repairs, Support & Planned Maintenance

- Fault finding
- Reactive repairs
- Preventative maintenance
- Site-specific testing and documentation
- CCTV and access control services
- Switchboard and lighting upgrades

HOW COAST MAKES THIS EASIER

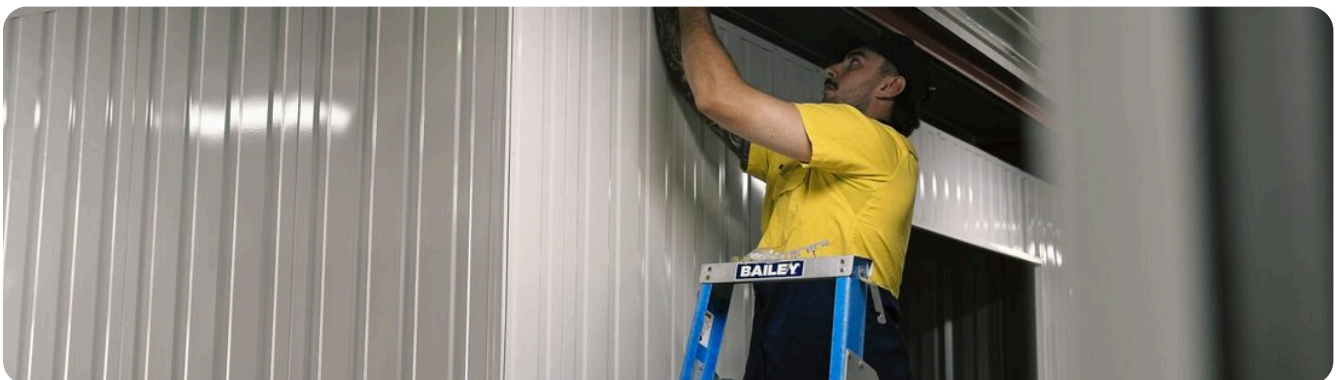

One team across projects and maintenance

Clear communication and coordination

Practical delivery on live sites

Support from planning through handover and beyond

Residential services are a supporting Sunshine Coast service. Our primary growth markets are commercial, industrial and storage.

How Coast delivers.

A proven process that keeps projects moving and assets performing.

- | | | |
|---|-------------------|--|
| 1 | Understand | We listen, learn and align on your goals and challenges. |
| 2 | Define | We confirm scope, outcomes and success measures. |
| 3 | Plan | We develop a clear plan covering resources, risks and timelines. |
| 4 | Deliver | We execute safely, efficiently and to the highest standard. |
| 5 | Commission | We test, verify and hand over ready-to-operate systems. |
| 6 | Support | We provide ongoing maintenance and support to protect performance. |

WHAT CLIENTS CAN EXPECT

Clear communication

Open, honest and timely updates at every stage.

Safety first

We protect people, sites and the environment.

Quality control

Rigorous checks to ensure work meets standard.

Useful handover

Complete documentation and training for your team.

Continuity

Ongoing support to keep your assets performing.

Project proof.

Proof across storage, commercial and industrial environments.

STORAGE

Swift Self Storage Hope Island

End-to-end electrical design and construct support for this new storage facility: lighting and power, switchboards and distribution, fire services coordination, and data infrastructure. Practical solutions with a focus on safety, reliability and future flexibility, with full testing and commissioning to handover.

COMMERCIAL

13 Loam Street

Electrical services across multiple tenancies and common areas: upgrades to mains and distribution, new lighting and power, emergency and exit lighting, and coordination with other trades to keep the program on track. Commissioned and documented to support a smooth handover.

INDUSTRIAL

Rowcon Recycling

Electrical infrastructure and upgrades supporting a high-demand recycling operation: switchboard upgrades, power distribution, machine and process power, lighting upgrades and energy-efficient solutions, with full testing and commissioning for safe, reliable performance.

RETAIL

Fantastic Furniture, Maroochydore

Full LED upgrade across an active retail store in a single day, without disrupting trade. Every decommissioned fitting recycled with certification provided. Won on referral, now an ongoing multi-site retail relationship.

Coast brings practical electrical delivery from planning through handover.

Planned. Preventative. Performance focused.

Great projects do not end at handover. Coast Asset Care helps protect what has been built with a clear plan for ongoing performance and peace of mind.

Review

We assess your assets, systems and data to identify risks, gaps and opportunities.

Plan

We develop a right-sized maintenance strategy aligned to your operations and compliance needs.

Maintain

We deliver proactive maintenance and support to maximise reliability, safety and uptime.

IDEAL FOR

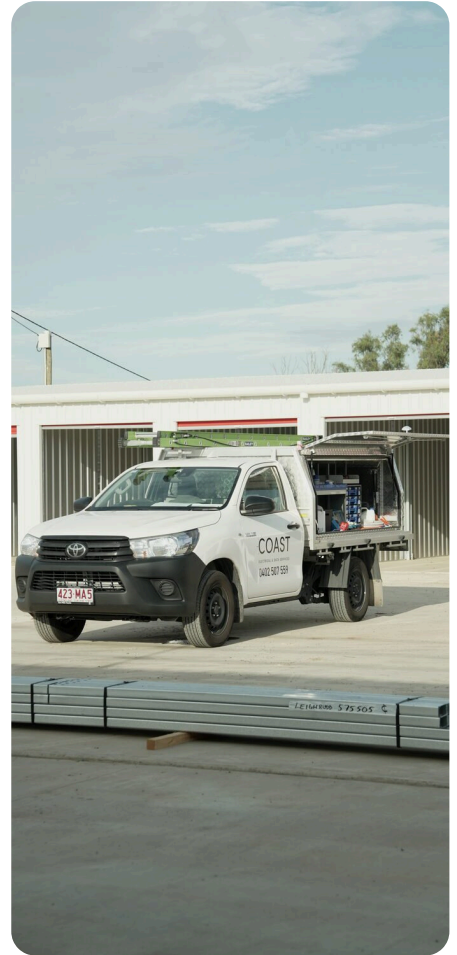

Commercial facilities

Industrial sites

Storage facilities

Retail & multi-tenancy

Bring Coast in early for practical delivery and support that protects the performance of the completed asset.

Licensed, insured and built on systems.

The foundations behind safe, reliable delivery.

ELECTRICAL CONTRACTOR LICENCE	88746 , Unrestricted (Queensland)
INSURANCES	\$10,000,000 public liability, QBE Insurance (Australia) Ltd · WorkCover Queensland workers' compensation, current certificate of currency
ABN	76 649 440 746
INDUSTRY MEMBERSHIP	NECA (National Electrical & Communications Association) and Master Electricians Australia
RECOGNITION	Small Emerging Business of the Year, 2026 NECA QLD Small Business Awards (State Winner)
QUALITY	Documented workflows, testing, defect close-out and handover discipline
SAFETY & WHS	Toolbox talks, SWMS, site reviews, refresher training and live site planning
TEAM CERTIFICATION	Electrical contractor licence requirements, team tickets and site-specific certifications
SYSTEMS	Simpro job management, scheduling, service planning, reporting, ITPs, job records and central proof folders

Evidence that reduces buyer risk: SWMS, testing and commissioning records, electrical licence and tickets, insurances and supplier controls, and managed job records, available on request.

People, leadership and training.

Coast has grown from a founder-led business into a capable team of tradespeople, apprentices and office support. Our team culture, leadership rhythm and commitment to training are part of the value we deliver to every client.

Leadership & management

Founder involvement in key projects and decisions. Clear leadership, regular communication and an accountability-first approach across every level.

Team capability

Skilled tradespeople, apprentices and office support working together to deliver safe, reliable and high-quality outcomes.

Training & development

- Onboarding for every new team member to set the standard from day one
- Refresher training to reinforce safety, systems and quality
- WHS modules for compliance and continuous improvement
- Technical refreshers to keep skills current with the latest standards and technologies
- Simpro-supported training records for visibility, compliance and audit-ready reporting

Core values

Honesty & Transparency

Commitment to the Team

Hunger for Growth

High Performance

Adaptability

"A strong team culture isn't just good for our people. It's part of the Coast offer to every client."

Sustainability and environmental care.

We apply practical environmental thinking on every site, through better site management, responsible disposal and more efficient project delivery.

Material use

Reducing material wastage and unnecessary cable offcuts.

Responsible handling

Managing batteries, lighting tubes and site waste responsibly.

Resource recovery

Recycling metals and copper where practical.

Better planning

Keeping sites cleaner, safer and more efficient through better planning.

WASTE STREAMS AND HANDLING

Batteries

Lighting tubes and de-lamping

Metals and copper

Cardboard and paper

General site waste

Environmental & procurement readiness

We support clients with environmental reporting, site waste tracking and supplier compliance where required.

Lean thinking

We plan, coordinate and communicate to reduce rework, minimise waste and streamline delivery on every project.

The outcome. Good site management, lower waste and better planning deliver a better project outcome.

Powering projects. Protecting assets.

Commercial electrical and data delivery, asset care and practical support across commercial, industrial and storage environments.
